William A. Burrows
709 Division Street
Gloucester City, NJ 08030

Dear Mr. Burrows,

Thank you for your interest in WFMC, and the broadcast you received on December 26, 1987.

Our wattage is 1,000, frequency is 730 AM. Our antenna is 314 feet. We broadcast from 6:00 am until 12:00 midnight. Our studios and transmitter are located in Goldsboro, North Carolina. We serve an area within a 50 mile radius of Goldsboro. We do receive many DX letters, sometimes with long delays in answering due to heavy workloads. Our general format is country and gospel.

It is unlikely that you actually received our broadcast on the date indicated. We do not play Michael Jackson on this station.

Sincerely,
WFMC

Robert Y. Wooten
